Re: SN 10/027,042 Filed 12/21/01	CC or Your #: 24347-254 US

Mr. Circus: I am contacting you as we still have no examiner assigned in this application. I have attempted to find out the status of this application on-line but it comes back as "invalid" when we enter the correct serial number which is SN 10/027,042.

Our original reason for contacting you in March 2002 was to inquire how we correct an incorrect serial number shown on the cover transmittal of our Response to Notice to File Missing Parts sent in on February 1, 2002 (due 3/24/02).

We have not received any communication on this application. We are concerned that the application has gone abandoned for failure of our Response to Notice to File Missing Parts to be filed as "timely" due to this error on the cover sheet showing the incorrect serial number.

Can someone from your division let us know what the status of this application is? We also have a new address and new phone numbers for our office since this Response was sent in to the USPTO in February 2002. We are now in Washington state, phone number, fax and email indicated above.

Thank you.
